

Webster-pak

What is a Webster-pak?

Webster-paks provide a simple way to take the worry out of medications. By having your regular medications packed into a weekly blister pack you can ensure you are getting the right dose at the right time.

Why use a Webster-paks?

Webster-paks work well because:

- ✓ there is a visible reminder to take medication
- ✓ it is easy to see if medication has been taken or not
- ✓ they are sealed and secure to prevent spills
- ✓ all age groups can use them
- ✓ they are convenient and portable
- ✓ it gives peace of mind for relatives and loved ones
- ✓ they reduce the amount of medicine in the home
- ✓ it is value for money

How does a Webster-pak work?

A Webster-pak is ideal for people:

- on multiple medications each day
- with complicated medication regimens
- prone to missing or forgetting doses
- who want a simpler, more efficient way to manage their medications

In the pharmacy we divide and pack your medications into different times of the day (ie breakfast, lunch, dinner, and bedtime) for each day of the week. Our pharmacist double checks each Webster-pak to ensure you are having the right medicine at the right time. When it comes time to take your medications you simply open the appropriate spot in the pack and can trust you are getting all your medications correctly.

Next steps

Review how many medications you are taking each day. If you are taking **three or more medications** at different times of the day a Webster-pak could help you. So come into the pharmacy and talk to one of our pharmacists.

If you are **caring for a loved one** and you are concerned about the medicine they are taking please come in and discuss how a Webster-pak could help them. We can manage their prescriptions and all their medicine and each week they will have a weekly Webster-pak that will ensure they take the right medicine at the right time.

If you are still unsure please come into the pharmacy and let one of our pharmacists explain more about how a Webster-pak could help you to manage your medication every day.

Warning - Always read the label. Use only as directed. Incorrect use can be harmful. Contact your doctor or healthcare professional if pain or symptoms persist. Vitamin supplements may only be of assistance if dietary intake is inadequate. Health information is general in nature and you must seek appropriate medical advice for your personal condition.
